Mrs S. A. Allen's World's Hair Restorer

The Genuine only in Pink Paper Wrapper
It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty
IT IS NOT A DYE
It ever proves itself the natural strengthener of the Human Hair.

THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained of in other preparations. It never stains the skin or linen. It retains the hair in any desired position, and is cooling and cleaning to the scalp.

Use no other Preparations with it, not even Oil or Pomatum

To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.

Because it is made from Choice Materials and prepared with the utmost Care and Skill.

Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.

Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.

Because by its Gentle Tonic Action the Roots are strengthened—New Life, and Hair Natural Colour.

Because the Soft and Silky Texture of Healthy Hair follows its use.

THE HAIR
Its Beauty can be Restored and Preserved.

Good News for Sheep Farmers

The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce the valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—
1st—It is instantly and completely soluble in either warm or cold water.
2nd—It is non-poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd—It is a certain preventive, and perfect cure for SCAB.
4th—It most effectually destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.
5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th—The Dip is invaluable for protecting the Sheep from the attacks of Flies and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.

Important

This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

Golden Fleece Dip

B. Aires, 17th Aug. 1881
Messrs A. Eastman & Co.
Presente
Dear Sirs
I bought from you a quantity of your 'Golden Fleece Dip' and have used it on my establishment in Mar Chiquita. It gives me great pleasure to inform you that I obtained the very best results with it, losing no animal and none of the men suffering who cured by hand. Its price is so economical likewise, that on all grounds I can cordially recommend it to every estanciero as the best remedy against scab.
Please fill the order at foot and believe me,

WARD & PAYNE'S
Sheep Shears
OBTAINED
THE ONLY GOLD MEDAL
For Sheep Shears
AT THE
INTERNATIONAL Exhibition
MELBOURNE
1881.

Ward & Payne's Shears No. 100 and 125 are very much improved and manufactured specially for this country.
They are made of the best steel and in price and quality will compare favourably with any others in this market.
They can be had direct from the importers J. MOHR BELL & Co. or through all Hardware dealers.

Facts worth knowing

1—During last season the demand for WARD & PAYNE'S Shears in Australia was so excessive that cable messages were continually being sent for increased supplies.

2—Single pairs of WARD AND PAYNE'S Shears clipped 3,000 heavy woolled sheep, and the most expert clippers in New Zealand affirm that they can clip nearly 10 sheep per day more with these Shears than with any other.

3—WARD & PAYNE are introducing two new Patent Shears No. 200 and 'The Equalizing Spring' for which they claim superior advantages. The undersigned will be glad to forward sample pairs on application.

4—Testimonials from Australia, N. Zealand and the RIVER PLATE can be seen at the Office of the undersigned

HAVAS' AGENCY

Paris 23rd (Evening)

The total results of the elections on Sunday last from all the departments of France and Algiers give the following figures—

Conservatives (Legitimist and Orleanists)	35
Bonapartists	50
Left Centre	41
Left Republican	159
Union Do	170
Radicals	28
Ties	65
	548

exclusive the Colonies.

Without taking into account the 28 radicals, the frankly republican party disposes already of a compact majority of 370 members of 483 elected, and it is probable that the definitive results of the 65 tie-elections will sensible increase their majority.

M. Gambetta was elected in the districts of Belleville.

Comparing those results with the former elections it will be seen that the Conservatives loose nearly 22, the Bonapartists 40, and the Radicals 15 seats in the new Chamber.

New York 23rd.
(Evening.)

The medical bulletin of this evening is painful, and presents the state of the President as hopeless.

Since yesterday he has completely lost his senses, accompained with delirium.

Every moment the sad news of a fatal termination of so long suffering is expected.

THE NEW MUNICIPALITY.

At the last meeting of the Municipality, the shocking state of the Chacarita cemetery was brought under the notice of the Board, and on due enquiry into the matter it was discovered that, some time ago, the committee to whom the affair was referred had taken the matter in hand, and it was resolved to fence this Municipal graveyard with wire and nandubay posts, but to the present no action has been taken in the matter.

To those who are acquainted with the present formation of the Municipal Board, it will not be surprising that the Chacarita cemetery, like many other Municipal establishments, suffers from the greatest Municipal neglect, since most of the Municipales having their own business affairs to attend to, are utterly unable to devote the time and attention which a proper Municipal administration calls for, and it is in the hope of correcting a very grave error in the city Administration, that we offer these remarks. The House of Deputies in Congress has just passed the new Municipal charter, which will at once go to the Senate, and in due course become law. Under this new organization, instead of being named by Government, the Municipales will be elected by the burghers of the respective parishes, and it is certainly not too much to expect that every parish will be able to supply men of good views, honest purpose, and easy circumstances, which are the essential qualifications of good Municipales. No matter how upright and painstaking a member of the Municipal Board may be, if he is engaged in business and is occupied in his office or warehouse all day, it is impossible for him to properly discharge the duties of a Municipal, since the administration of city affairs is now so onerous that it needs the whole time of a Municipal to act well his part, not only as member of the Board, but also as member of any of the committees into which that Board is subdivided.

Some of the members of the present Board, recognizing their utter inability to discharge the duties of Municipal, would have long since resigned, but through a sense of delicacy, aware of the present temporary formation of the Board and the impending changes, they preferred to remain rather than gather undue prominence by resigning.

But the Municipal administration of this city is the most defective that can be imagined. The Lord Mayor sits for so many hours daily despatching the thousand matters that come before him; he orders the secretary to summon the Board; the law says 11 members make a quorum, but to get 11 members present more than once a week or a fortnight is more than impossible. The Committees are expected to meet daily, but as nearly all the members are business men, even the Committees cannot be got together, and thus the whole Municipal machinery is held together by the Lord Mayor and his clerks.

We shall not advert more in detail to the present shortcomings of the Board; as is at is present formed they are simply inevitable, but since a new Municipal law is now coming into force, citizens and taxpayers must be on their guard to look well to the men they elect as Municipals; only those in easy circumstances and who have plenty of time should be eligible. To name an editor who has to attend to his newspaper, or a merchant who must look after his office, or a banker who must keep the run of discounts, is but to repeat errors which have plunged the Municipal affairs of this city into their present deplorable state.

The Municipal revenue of Buenos Ayres may be termed a mine of wealth; money flows into the Municipal Treasury from every quarter; the Municipality of Buenos Ayres not only should not owe one farthing, but should have millions at its disposal to embellish the city. During the last six months Mr Alvear has proved this fact and astonished the town by the number of large expensive works he has carried on without borrowing a dollar or increasing the taxes. Never before has the pavement of the streets, and the 'expensive adoquina' been carried out on so large a scale as at present, whilst the improvements at the Recoleta, and on the barranca overlooking the river give an inkling of what might be effected were the board as active and energetic as its president.

The present state of the Chacarita Cemetery is not only a Municipal disgrace but a slur on the morals of the people. Last year, owing to the encampment of the troops hard by, everything available for firewood was torn away, posts, fences, crosses etc. That in a period of war and tumult such an outrage could occur is not surprising, but that a year should be allowed to elapse without any effort of the Municipality to renew the fences, repair the damage and care the graves of the citizens is really inexplicable,

Everything connected with the Chacarita service is despicable: The Western Railway coaches are worse than the direst description of old Charon's boat on the Styx. Then again, to renew the tenure of a grave 240 m/c has to be paid to the Municipality at the expiration of every 5 years, and to increase the disagreeableness of this tax, the party paying it must go out to the Chacarita to have it registered when by right the books and the office should be in town.

The horses of the neighbourhood, the cows and the bullocks of the vicinity, as there are no fences, all feed now on the wild grass that grows over graves of departed

THE GLYCERINE DIP can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maipu 93 and 95. Beware of imitations and falsification

friends, 'where heaves the turf in many a mouldering heap.' The subject is too gloomy to dwell further on: it was brought up on Tuesday before the board by a member who for the first time heard of the scandal, and steps are now being taken to fence the grounds.

BANDA ORIENTAL.

This city 'en fete.' 5,000 invitations for lunch at Policia.

The Euclid and Trent's Mails.

London, July 26th.

In the House of Lords last evening the Earl of Northbrook presented a Bill to amend the Patriotic Fund Act, which was read a first time.

In the House of Commons, Sir W Harcourt confirmed the substantial accuracy of the statement which appeared in our columns yesterday, respecting the discovery and seizure of infernal machines at Liverpool. Sir M Hicks-Beach moved a vote of censure on the Administration for the course pursued with regard to the rising in the Transvaal, which was seconded by Baron de Worms. Mr Rathbone proposed an amendment approving the steps taken to bring about a peaceful settlement. This was seconded by Mr Henry Fowler. The debate was wound up by Mr Gladstone on the part of the Government, and by Sir S Northcote on behalf of the Opposition.

Our New York Correspondent telegraphs that Mr O'Donovan Rossa declares he knows nothing of the infernal machines discovered at Liverpool, and thinks the story too ridiculous for a sensible person to believe. At the same time he considers it not improbable that the machines may have been sent by Irishmen, judging from the spirit that animates many of them in America, Australia, and England itself.

We learn from Washington that the anxiety caused by the President's condition is subsiding owing to the publication of more favourable reports from the surgeons.

Our Washington Correspondent telegraphs the text of the letter addressed by Mr Gladstone to Mrs Garfield, and of the reply sent by Mr Blaine through the American Minister in London. Mrs Garfield says that among the many thousand manifestations of sympathy which have reached her, none has more deeply touched her heart than the kind words of Mr Gladstone.

A telegram from Mehdia, received in Tunis, states that fifteen French ships were bombarding Gabes. Desertions from the Tunisian army still continue.

Our Correspondent at Larnaca telegraphs that a petition to the Prime Minister is about to be forwarded from Cyprus praying for the annexation of the island to Greece, or the appointment of a Royal Commission to inquire into the complaints of the people.

Our Correspondent at Geneva says that the recent earthquake was the sharpest known in the district since 1854. On the same day various parts of the country were visited by storms, which did much damage.

A telegram from Constantinople states that the sentence of death passed upon Midhat Pacha and his fellow prisoners will be commuted by the Sultan into exile.

Earl Granville has addressed a Circular to Her Majesty's representatives abroad informing them that when British subjects in pursuit of their own pleasure or business are captured by brigands, no advance whatever for the purposes of ransom will, under any circumstances, be made from the British Exchequer. The decision has been arrived at in consequence of the two recent cases of Colonel Synge and Mr Suter. In a despatch to Lord Dufferin, Lord Granville requests him to make known to British subjects that henceforth if they reside in any of the provinces of the Turkish Empire where brigandage prevails they will do so at their own risk.

The funeral of the late Dean Stanley took place in Westminster Abbey yesterday in the presence of an enormous representative gathering. It was attended by the Prince of Wales, the Duke of Connaught, and Prince and Princess Christian, while Lord Thurlow represented the Queen. The Sub-Deau, Canon Prothero, and Canon Farrar, took part in the service, the Archbishop of Canterbury pronouncing the benediction. The remains were deposited near those of Lady Augusta Stanley, in Henry VII.'s Chapel.

Yesterday at the Wesleyan Conference a memorial was received from the Anti-Narcotic Association making reference to the growing use in the country of narcotics, and to the evils resulting therefrom, and praying the Conference to exert its influence against it. This that body consented to do.

Yesterday afternoon the Naval Reserve Squadron, in command of the Duke of Edinburgh, arrived in Leith Roads, and an address of welcome to his Royal Highness was presented by the Dock Commissioners.

Yesterday the Lord Mayor presided at a meeting held at the Mansion House, at which upon the motion of Mr. S. Morley, M.P., seconded by Mr. Tritton, it was unanimously resolved that it was desirable to form a Chamber of Commerce for the metropolis, and a provisional committee was appointed.

Temperature yesterday did not range higher than 69 in London, 68 at York, and between 56 and 63 elsewhere. The weather was fair over the east of England, but there was rain over the western half of the Channel and the west of France.

The Stock Markets yesterday were generally dull upon the approach of the settlement. In home railways South-Eastern A closed ½ lower on balance, and Canadian and American issues declined considerably, Foreign Government Bonds being fairly steady. Italians rose ¾. Consols left off at 100⅞ to ⅛101 for Money and the Account. £15,000 in gold was withdrawn from the Bank.

THE DISCOVERY OF INFERNAL MACHINES AT LIVERPOOL.

The accuracy of the particulars published in the *Daily News* yesterday of the discovery of infernal machines at Liverpool was, it will be seen by our Parliamentary report, last night confirmed by the Home Secretary in an important statement in the House of Commons. The determined reticence of the public officials in Liverpool, within whose knowledge the facts of the discovery of the machines amongst the cargoes of the Malta and the Bavarian may be supposed to have come, rendered it difficult yesterday to arrive at any more authentic or fuller explanation of the circumstances, but nevertheless (our Correspondent telegraphs) sufficient has been gleaned, by repeated and widespread inquiries, to indicate that the story published yesterday is in its essential particulars correct. The reason for this unwillingness to disclose information is probably a fear lest publicity should throw difficulties in the way of the detection of the originators of the conspiracy which is supposed to be at the bottom of the matter; but as such publicity has now been given it is difficult to understand the reasonableness of the official attitude, which is simply one of an absolute and unconditional refusal to make any statement whatever on the subject. Amongst prominent officials who were waited upon yesterday by representatives of the Press was the Mayor of Liverpool. His worship, in reply to inquiries, stated that he had nothing to say, and nothing could be gleaned from him. The Inspector-General of Customs had a reply similar in effect, but in his case the prohibition was evidently imposed by a higher authority, for he stated that he was not 'at liberty' to disclose anything. He added, moreover, that it had been decided that as the information had in the first place come from London, all further particulars should also be obtained from there. The Head Constable, Major Greig, was somewhat more communicative, and though he declined to enter into details, and requested his interrogators not to press him for information which he was not at liberty to give, he admitted that the facts in the narrative published yesterday were to a large extent correct. It appears that the secret has been preserved closely for about three weeks, although known to the police, the Government and to a certain extent the steamship companies in whose vessels the clockwork machines were unwittingly conveyed. The Malta, of the Cunard Line, arrived in the latter part of June and docked in the Canada Dock; while the Bavarian, of the Leyland Line, arrived on the 3rd inst., and docked in the Huskisson Dock. Both vessels came from Boston, where the headquarters of the Fenian organization appear to be situated. The managers of the Cunard Company declined to give any information beyond admitting that certain packages had come by their steamer which had not been claimed, and had been taken possession of by the Customs authorities. Upon being pointedly asked, however, if they denied the truth of the story published yesterday, they replied in the negative, adding that they could not not say any more. At the offices of Messrs. Leyland more satisfactory information was obtained. It was ascertained that the Government had taken the matter entirely out of the hands of the company, a gentleman having been sent down from the Home Office immediately on the discovery being made Superintendent Williams, of the Liverpool detective force, and the gentleman in question had both made every inquiry with a view to detecting the senders and the consignees of the machines, but, so far as was known, without effect. Any clue that was obtained was, at any rate, kept carefully secret. The detectives at Boston had been communicated with in order to discover the senders, but without success, and as the goods were consigned either to a fictitious name or to order, and no one had come to claim them at this end, the hopes of discovering the consignees were very slight. There seems to be little doubt that the discovery of the explosive apparatus is to some extent the sequel of the information obtained by the police about the time of the arrest of McGrath and his fellow conspirator for the attempt to blow up the Town-hall. A rumour, indeed, found currency yesterday that it is partially due to the revelations made by the two prisoners themselves since their captivity, but this, of course, is largely a matter of conjecture.

EDITOR'S TABLE.

The Pacific steamer Iberia arrived yesterday with dates to 3rd inst. State of Afghanistan critical and another British intervention expected. Cession of Turkish territory to Greece completed. King George will pay the Sultan a friendly visit. Eastern plague raging in Saint Petersburg. English Catholics sent address to Pope Leo, expressing their indignation at recent occurrences in Rome. Swiss won most of the shooting prizes at Munich. Amnesty to Press in France.

The Gironde sailed yesterday. The mail was average, the weather delicious, and the passengers looked as if they had taken out policies of insurance against 'mal de mer,' at least until they get clear of the mouth of the Plate.

Three Sisters of the Sacred Heart Order have arrived for the Irish Convent, in the Iberia, and will land this morning in the Captain of the Port's 'falua.' Mr. E. T. Mulhall and daughters will go out to the steamer to receive them.

News from Montevideo is now the first thing asked for every morning. Our news that Colonel Latorre passed through this city a few days ago surprised many, but it is a fact The most contradictory opinions prevail as to the upshot of the patriotic rumpus now going on on the other side of Jordan. Some are willing to wager all the hats in Sommer's shop that Latorre will be in Montevideo again before September has run its course, whilst others are equally willing to bet that Vidal and Santos will hold their own. We give the latest news in another column. Simon Martinez has issued a manifesto against Latorre. 'Parbleu!'

Should any of our camp friends require a really good teacher for their chileren, we can recommend a gentleman with excellent introductions, amongst them a letter from Mr. Galleuga, the *Times'* correspondent, who was here last year.

We are sorry to hear that our talented colleague, the editor of the *Republica*, is unwell, but hope it will not be for long.

The Senate passed the Coinage Act on Tuesday.

We feel great pleasure in welcoming back Mr. W. Hutchison, who has arrived by the Trent, after a short tour in the Old World.

The R.M.S. Trent arrived here early yesterday afternoon. The shooting of an English landlord and his son, at York, is a new and unpleasant sign of the times in England. Prince Bismarck and Mr Forster had both received letters threatening to 'do' for them, but it is reported that the Prince at least knows all about it, and that it is only an electoral ruse. Some infernal machines, said to have been sent by the Fenians, were seized at Liverpool while being landed there. The persecution of the Jews in Russia is so bad that the troops had to fire on the mob.

The National Chamber of Deputies passed 'en general' on Tuesday the Bill granting 100,000 patacons to the Continental Exhibition. In Committee there was some opposition, and the debate was adjourned.

Ayacucho has three newspapers, and will soon have a fourth, a weekly, to be edited in an 'energetic' way. Four newspapers are enough to ruin a large city, much less a small camp town.

We give the list of entries for the Lujan Races on the 8th and 9th prox., in another column. They promise capital sport.

Justice Shallow was fit to sit on the woolsack when compared with some of our camp Jueces de Paz. The J.P. of Dolores recently clapped a young man into jail there at the request of a leading burgher. The young fellow's offence was wishing to become the burgher's son-in-law, a relationship the bare contemplation of which gave the old party the gout. The Juez came to the rescue by damming the course of true love in the way described.

Our friend, Mr. Williams, had an interview with the Minister of the Interior on Tuesday in reference to his great secret for making a port for B. Aires, to cost only £2,000,000, and to hold ten times more vessels than the present trade requires. Mr. W. asks 50,000 patacons for his secret, but whether he has let the cat out of the bag to the Minister, or received the trifle he asks for it, we have not heard. A good port would be dead cheap at £2,000,000 sterling.

Baron Holleben. German Minister, and Baron Gravenegg, Austro-Hungarian Minister, have gone on a trip to the colonies in Entre Rios. It looks well to see foreign Ministers taking an active interest in our agricultural settlements.

Vorwärts! We see by an advertisement in another column that our German friends are going in—not exactly for 'literatchar,' as sings Alonzo the Brave, but—for theatricals. We learn that the Club Concordia, which has always cultivated the art of Thespis on a modest scale, has resolved to show that a good German amateur theatre at Buenos Ayres is not an impossibility, and will open on Sunday, 4th September prox., with one of the best modern comedies, 'Ultimo' by G. von Moser, which has had an immense success in old Vaterland. Bravo, Sons of Arminius! We congratulate you warmly on your laudable attempt and hope this 'Ultimo' will be the 'primero' of a series of performances. Why should'nt our German cousins be able to have a good amateur theatre in the way we have got it? We know that great preparations are being made as regards decorations (for instance, an entirely new drawing-room, on which no expense has been spared to render it A. 1.) The artists are busily engaged in studying their parts, and we are sure of their success. We don't doubt that those of our countrymen who understand the language of Goethe will assist at the performance, enjoying a very pleasant 'rato' and proving at the same time that the English heartily welcome their German friends and wish them every success! 'Vivat sequens.'

The Theatre Francais is each day gaining in popularity owing, probably, to the presence of the new artist, Mdlle. Waldteufel. On Tuesday night Faust was given and attracted a very fair house, who loudly applauded and repeatedly called to the foot-lights, Marguerite [Waldteufel], and Mephistopheles (Dangon), who both sang and acted admirably. Madame Privat and Mademoiselle Waldteufel are both good actors and singers; but, of the two, we consider the former's voice the sweetest. Lucia di Lammermoor is the next piece that will be given. The manager could do worse than call the attention of certain short-sighted persons to the notice about smoking.

A soldier of the 8th of the Line, bearing the euphonious name of Nicolas 'Patacon' was run over by a Lacrosse tram car on Tuesday. There was a fall in Patacons, but not a downright smash, as Nicolas was only slightly hurt, and speedily at a premium again.

The Provincial Government has asked the National authorities to adopt energetic measures to stop ostrich-balling in the South, as it is at the root of all the murder and arson going on there. The Provincial Minister considers that if a heavy duty were put on ostrich feathers it would have the effect of stopping the 'boleando'. We really cannot see it. Marauding 'gauchos' would be more effectually restrained by shooting a few of them than by the measure proposed.

Those who pooh-pooh the Rio Negro Lands may be interested in learning that over 120 of the officers who took part in the famous Expedition under the President of the Republic have applied for concessions of land down there. These officers ought to be the very best judges, and would hardly be anxious to get hold of indifferent land.

Dr Avellaneda, Rector of the University, has proposed to the Minister of Interior to establish a Chair of Mining Law in that institution. A good idea, as mining is already coming to the front, and the laws relating to it are about as loose and hazy as they well could be.

We commend the article in our Supplement (from a New York paper) to those who are afraid that the French Bounty Law will seriously injure the trade of the Mistress of the Seas. From the first our American cousins have laughed at the idea, and it will be seen that the Hamburg shipowners are of the same opinion and have not themselves suffered in the least by the strained efforts of France to secure a more important position for her mercantile navy 'on the rolling deep.'

The Victor Hugo performance at the Colon Theatre last night was largely attended. Our colleague *L'Union Francaise* published a portrait of the poet in its issue of yesterday. It also published a cut of the Continental Exhibition building.

Two ladies who wanted to refer to some books in the Biblioteca de la Provincia were refused admittance on the ground that the fair sex had no right to enter. This is something new. Woman's rights appear to be at rather a low ebb in the Provincial Library.

ON 'CHANGE.

Aug. 24th, 1881

Patacons	25.55
Cedulas A	99½
National Bank Shares	118⅝

The gold market, as we draw near the end of the month, shows the same hardening tendency that it did last month at the same period. Many parties on 'Change seem to think that the cheapest thing in the country to-day is gold, and there is always a sustaining element found at the ring. Of course the month's liquidation which is so near at hand, always causes an artificial demand for gold, but we think the pressure this month will be less than last. Gold opened at 25.55, and held there all day, cash sales 69.162. For Saturday 20,000 at 25.60, for end of month 220,000 at 25.55 to 60, closing at 55, and for Sept. 100,000 at 25.40. Sales to-day 409.162.

In Cedulas very little done, 21,600 sold cash at 99½, and 59,500 for end of month at 99½ to ⅝, but no speculation in the market.

Gas shares nothing done to-day, buyers offering, and large lots might be realized at current rates, but holders seem in no hurry to part with their stock.

Nat. Bank Shares rule firm, steady, and looking upward, the market astonishes the bears, and we note a strong growing speculation for September. Many transactions for the end of this month will be passed over to September, and people are now beginning to admit that there is nothing so surprising in the great business going on in the share market, since there is nothing else left on the Bolsa to speculate in. The business in the stock to-day may be summarized so—

For cash	603 shares
Do end of month	1500
Do September	2640
Do October	400
Do December	50
Total	5193

Thus it will be seen there was not such heavy work to-day, since there are men at the ring ready at any moment to buy or sell five thousand shares when prices suit them. Prices for cash opened at 118⅝, and closed at 118⅝. For end of month fixed as the Polar star at 119 For end Sept. firm as a rock at 117, for October there is a young business going on at 117 and 116, and already the brokers are casting the horoscope for end of year; a trifle sold just to show people the look of things for then at 110.

The Minister of Interior was unable to attend to-day, but parties waited on Dr Alvarez to inform him that 50 more Welshmen are in, and to ask what about sending them down to Chubut. The Welshmen are the only Britishers that outstrip Argentines and their Government. President Roca has received a most amusing letter from Wales stating that all the Welshmen there are about to come out here, where the rights which they lost in Old England they hope to revindicate in this Republic; we hope to get the letter for publication.

Sixteen sea going vessels entered this port yesterday full of Carlon wine, kerosene, coal, comestibles, &c, and we ask ourselves in which direction is the outlet for such a stock. The fact is camp districts are rapidly developing, and towns in far outlying districts are growing in importance; thus absorbing these prodigious imports. The South for instance is daily becoming a larger consumer, and to Bahia Blanca we must look as the future port for many of these valuable cargoes. Within a comparatively short period we shall see the whole of that splendid tract of country comprised between Bahia Blanca, Puan and Carhue thickly settled on, and the now projected line of railway will have become an imperative necessity, and an accomplished fact. Our prophecies whether of land or Bank Shares have come pretty true, and if we now foretell a rapid rise in the value of camp lying South we ground our reasons on the land itself, the climate so well suited to the European, and the high standing of the men who have lately been large purchasers in the Puan and Bahia Blanca districts. Look over the Engineers' map of the Province and read the proprietors names; at a glance one notes the official element largely preponderating, sure indicator of picked land. For instance close to Puan we observe twenty leagues in the occupation of the late President of the Republic, and all round there names of men who well know what they are about, and awaiting the brilliant development of which they are sure to reap the benefit. The man who at present juncture on the very threshold of prosperity sacrifices his land will bitterly repent it, with our words still ringing in his ears. Only lately we alluded to the immense amount of wiring going on South; all that means increased prosperity, and now that the Plaza Montero concession has passed into real business hands there is every probability of an early stir in that direction, the more so as we believe the concessionaire has a somewhat limited period in which to stock as per original contract. We are requested by Messrs Baltar & Quesada to announce that in consequence of the numerous applications to see the land and to give time and every facility for that purpose the sale of the four leagues of land, near Puan, announced for Monday next has been postponed until the 20th of September.

The sales at the ring were—

For cash 69,162 25.55
For August 27th 20,000 25.55-60
For August 31st 222,000 25.55-60-55
For Sept. 30th 100,000 25.40
Sales, 409,162.

Cedulas—

For cash A 21,600 99½
For Aug. 31st A 59,500 99⅝-¾
Sales, 81,100.

Nat. Bank Shares—

For cash 503 shares 118⅝-½-⅝
For Aug. 31st 1,500 shares 119
For Sept. 30th 2,640 shares 117
For Oct. 31st 400 shares 117-116½-116
For Dec. 31st E 50 shares 110
Sales, 5,193.

At afternoon there was not much done, gold sharpened 5 cents, buyers 25.55, sellers 25.60. Nat. Bank Shares slow but firm, 119, sellers. Cedulas nothing done.

Owing to the sailing of the French mail, there was not much done in general business, wools no arrivals.

Capt. Hart Dyke, who has come out in command of Trent was welcomed on Change. Mr Consul Spangenberg of Gualeguaychu, was also welcomed; but where the real welcoming going on was to-day at the mole, at half past 4 o'clock; such crowds of passengers, coaches, luggage cars. It is really necessary to go down and see the place to know what is going on in this line; Euston square station is the nearest thing to the mole this afternoon, yet wiseacres say this country is not growing.

The Archimedes left Rosario this morning and will be here on 26th. She sails 1st Sept. for Antwerp and Liverpool.

The Teniers arrived in Montevideo this morning, will be here on 26th to load for Bordeaux and London.

The Euclid arrived up to-day, she brings 900 tons cargo for here and 800 for Rosario.

The Bessel also arrived, she brings 1200 tons cargo.

The Douro and not the Mondego leaves England to-day; she brings fifty thousand pounds sterling.

The steamer Euclid has brought out some 30 Welsh colonists. The Bessel has brought out some 50. Thus there are 80 Welshmen here now waiting to go to Chuput. Application was made this afternoon to see if the Toro could wait to take them down, but it seems impossible. The Toro sails to-morrow at 2 o'clock full both of cargo and passengers; the trade with the South is growing tremendously.

We learn that Mr T. Brassey has been made a Baronet and K.C.B.

The London papers of 26th give the following prices.

The report of the Committee on the new University was laid before Congress yesterday. It seems Dr Avellaneda, the Rector, proposed that the new building should be on the site of the Parque de Artilleria, but the National Government was opposed to this, as the Minister intends to sell that splendid site, and from the proceeds purchase a 'champs de mars' for all the town garrison, and still have money over. The new University will be at the Retiro, where a splendid site overlooking the river will be given by the Government, and we may look in a very few years for a 'quartier latin' for the students about the Retiro.

The clearance of the Gironde was the business of the day; the mole was crowded, and many passengers left. She took an average mail.

The sale of 1,2oo good mestiza sheep at Bahia Blanca at 38 m/c 'al corte' is reported; J Bellido buyer. The sheep go to the estancia Nueva Irlanda on the Rio Negro.

Hardly has the Villarino cleared with the 90 Welsh colonists for Chubut when the Bessel enters with 50 more Welshmen. We congratulate the Government on being completely overcome by the Welshmen; it is a good sign and will lead to some reform in the immigration line.

Pressure on our space forces us to hold over a letter from our German Correspondent. We shall publish it to-morrow.

GERMAN AND FRENCH VIEWS ON SHIPPING POLICIES.

The Hamburg shipowners and the Chamber of Commerce of that city have not been long in replying to Bismarck's review of the French shipping bounties, to which allusion was lately made in our columns. Contrary to what might be expected, the Hamburg shipowners do not want any subsidies. In a lengthy petition to the Reichstag against subsidies, they state the reasons why they do not require or desire Government aid; and the document has been signed by almost the entire trading community. The shipping of the port of Hamburg is composed as follows—

Sailing vessels.....	366
Steamers.....	126
Total.....	492
Registered tonnage	
Sailing vessels.....	146,965
Steamers.....	137,048
Total.....	284,013

The document begins by calling attention to the one-sided manner in which Bismarck has treated the French subsidies, in warmly eulogizing them and passing over in total silence the objections which can be urged against the French policy.

So far as respects the French premium on ships built in France, the Hamburg merchants state that, up to the present time, no vessels have been constructed in Germany for French account, and that there is no reason to believe that Germany will have any vessels built in France. The incapacity of the French shipbuilding yards to turn out any considerable amount of tonnage (in 1878 only 21,367 tons of all classes were built) will, says the report, make the law almost a dead letter.

The bounty on long voyages will have the effect of driving French vessels into the transatlantic trade while the Mediterranean and Black Sea commerce will be transacted by foreign bottoms. As the subsidized French lines are excluded from the bounty, the German lines which have already to compete with them will not be in a worse position than heretofore. Nor do the Germans believe that the transatlantic freight trade will suffer any from these bounties, even if they amount to 10 per cent of the value of the vessel. As a proof of the inferiority of the French marine, the results obtained by the Compagnie General Transatlantique are cited from its last report. The capital of this Company is 40,000,000 francs, and the Government has advanced to it 6,897,000 francs. The gross receipts in 1879 on its lines to New York and the West Indies and the Marseilles line were 17,565,437 francs. The expenses, exclusive of those of the management, on the other hand, amounted to 19,752,396 francs, showing a deficit of 2,200,000 francs. Luckily for the Company, the subsidy amounted to 9,958,805 francs, but for which the loss would have been 7,500,000 francs. The report of the Company says, however, 'Les resultats que nous venons de faire passer sous vos yeux prouvent la prosperite croissante de la Compagnie.'

It such results prove a 'growing prosperity,' then the German lines are certainly on the high road to wealth. The Hamburg-American Line, in direct competition with the French, and with a capital of only 15,000,000 marks, yet earned a profit of 2,300,000 and gave a dividend of 6½ per cent. The Hamburg South American made a profit of 1,329,000 marks and gave a dividend of 10 per cent. The Kosmos Line made 900,000 marks, and its dividend was 11 per cent. The economy which late years have made essential for German sailing vessels will, it is assumed, enable them to successfully meet the French competition, if such there is going to be. But the danger, it is thought, is exaggerated, for the total tonnage of sea-going vessels under the French flag is only 363,000 tons of sailing vessels and 110,000 tons of steamers, of which latter 85,000 tons are subsidized. Moreover, the greater part of the French sail have been characterized by the French Minister of Marine as 'old wooden shoes'—a phrase which correctly enough characterizes those vessels. The bounty would therefore have the effect of prolonging the transformation period which is the great feature of the mercantile marine of the progressive countries; that is, the substitution of iron steamers for wooden sailers, and the only advantage accruing would be that to the owners of the 'old sabots.'

Freights have gone down from 80 shillings to 45 shillings within a few years for East India voyages, and no Government aid could make up for such a decline; yet the German marine has withstood the crisis. Any Government aid would also only encourage undue competition. The petition ends with the assertion that the best way to assist the shipping interest is to free it from the vexatious burthens and control to which it is now subject; and the hope is expressed that such relief will be afforded. As a statistical item of interest to shippers, we append a few details given in the list of signatures. The Hamburg-American Company possesses 22 steamers, of a tonnage of 56,100; the Hamburg South American, twelve steamers (3 building), of 26,650 tons; R M Sloman & Co., 13 steamers, 25,000 tons, and 13 sail of 13,000—total, 26 vessels and 38,000 tons; Amsinck, 17 sail, 12,202 tons; F Laeiss, 18 sail, 10,178 tons.

This discouraging view of the French mercantile marine is, however, shared by French authorities themselves. M. Simonin, in *La Nouvelle Revue*, takes a survey of the commerce of England, and comes to the conclusion that that country must almost monopolize for many years to come the carrying trade of the world. The ports of the United Kingdom number 130, which have the following annual amounts of British and foreign tonnage entering and clearing in the foreign and coastwise trade—

	Ports	Tonnage movement.
England.....	84	92,000,000
Scotland.....	27	17,000,000
Ireland.....	19	14,500,000
		123,500,000

M Simonin states that the maritime supremacy of England is based on its coal and iron, which not only gives that country the material and the motive power for the finest steamers in the world, but also contributes a most important item of freight. The annual exports of coal are about 16,500,000 tons; the production of iron is 6,000,000 tons, while that of France is only 1,400,000 tons. The total output of coal is 134,000,000 tons, which supplies fuel for the greatest factories in the world. With such immense natural advantages, it is easy to understand how it is that the foreign trade of England is double that of France, £633,000,000.

But it is in comparing the mercantile marine—the means of transport for this trade—with that of other countries that the commanding position of England becomes manifest. The ocean sailing vessels of the world number 48,584, out of a total tonnage of 14,000,000 tons. Of this total tonnage, England owns 18,352 vessels of 5,500,000 tons, or more than one-third of the whole.

If the day for sail vessels be not over, its glory has departed, and only the very economical nations can make it pay. There was a decrease in 1880 of 400 sailing vessels. Italy is mainly building a class of vessels which would seem out of company with the French 'luggers' alluded to; the Greek vessels are mostly adapted to the devious navigation of the Archipelago; and Marseilles has almost gone out of the little ship-building she ever went into. In the new regime of steam, out of a total number of steamers of 6,392 and a tonnage of 6,854,000, no fewer than 3,787 steamers and 4,266,000 tons belonged to England—or more than one-half of the whole steam marine of the world. The number of new steamers built in 1880 was 495—the great majority of which were English.

In the face of such facts, and with British commercial houses extending over the earth, and English spoken from 'China to Peru', it seems safe to conclude that French legislation can do very little to prevent that law of the 'survival of the fittest,' which holds good in the commercial as well as in the animal world.

El Martes 20 de September
A las 2 en punto de la tarde
Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno d. la Provincia de Santiago del Estero y con acuerdo de su Legislatura.
Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.
El Gobierno de Santiago ha sido, como lo decimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.
Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.
El Gobierno de Santiago no pretendo con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.
A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubjeacion, de manera que el primera que compre, sea el primero que elija y asi sucesivamente.
Siendo la venta dentro del territorio de Santiage, ningun otro gobierno iniciara protesta alguna, lo que importara garantiaar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.
El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.
En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.
No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

Remataremos a la mas alta postura y dinero de contado por orden del Sr. D. Narciso Vivot, el primer lote que presenta en nuestro mercado compuesto de 25 carneros sangre pura Negrete, procedentes de su establecimiento El Retiro en Chascomus.
Estos animales fueron esquilados en Diciembre ppdo., por consiguiente solo tienen 3 meses de lana y son de 24 meses de edad.
El origen de la majada Negrete del Sr Vivot es de la primera y mas acreditada Cabaña de su tiempo, 'Poronguitos,' de la propiedad del Sr. Don Claudio F. Stegman.
El Sr. Vivot compro en el año 1863 al Sr. Stegman una de sus mejores majadas Negrete, la que ha conservado siempre pura, habiendola servir con carneros de las mejores cabañas Negretes Europeas, como ser la del Sr Mass en Kenslin, Gadegast etc., habiendo comprado siempre carneros de muy alto precio como lo han podido observar los que concurren a los remates de animales de raza.
Los carneros que ofrecemos en venta son todos descendientes de carneros de la primer Cabana Negrete que hay en Europa, la del Sr. Mass, en Kenslin, lo que hace inutil toda recomendacion.

Venderemos sirviendonos de base la infima cantidad de ciento treinta y dos mil novecientos doce pesos m/c y 66 cents; este valioso terreno cuya superficie es la siguiente: 166 vs igual a 143 mts 756 mls de frente al Este (cada) 150 vs igual a 137-674 mts al costado Norte, 155 vs igual a 135-330 mts por el Sud y 152 vs igual a 131-632 mts por el Oeste, medidas que equivalen a 24,963 vs cuadradas o sean 18,896-88 metros cuadrados. A mas en este terreno que esta cercado de enredaderas tunas, zanjo y el frente alambrado, hay edificio compuesto de tres piezas de material, techo de paja y piso de ladrillo, cocina de idem sin techo y cantidad de arboles frutales y de sombra.
Como hemos dicho antes, tan proximo al centro de la ciudad no hay un area de tierra como esta; dentro de poco podra el comprador fraccionar y obtener entonces una gran utilidad; todas las inmediaciones estan pobladas y se nota la gran necesidad de edificios en esta parte que anunciamos. La proximidad por otra parte a las plazas Once y Constitucion lo mismo que a los corrales de abasto, lo habilitan como para una gran barraca, casas de inquilinato o para una preciosa casa-quinta.
Pedimos a los especuladores visiten este lindo terreno antes del remate y por mas datos pueden pasar por nuestro escritorio, Calle Victoria 156.
